

SCENES IN IRELAND.

An interesting lecture upon the  
mantic portions of Ireland was given  
last evening at the First Congrega-  
tional Church by Rev. William Horne  
Day. Stereopticon views enlarged  
from photographs taken by Mr. De-  
served to illustrate the lecture by ph-  
ing each scene before the audience.

Mr. Day took the best method of seeing the actual life of the country by making his tour on a bicycle, in go-as-you-please manner that allowed of any stops and side excursions dictated by the fancy of the rider. In this manner, many of the most interesting places were viewed at the leisure of the tourist, whose object was to make a thorough study of the country and its inhabitants.

Beginning at the famous castle of Blarney, Mr. Day led his auditors through many famous ruins, shrines and cloisters, which told of the

mous days when the monks of Ireland  
 were the evangelists of all Northern  
 Europe, and princely residences of  
 titled and wealthy landowners of  
 present day, to whose careless rule  
 owing so much of the misery of  
 Irish peasantry. The condition of  
 poorer classes was also thoroughly  
 gone into by the speaker, who drew  
 touching picture of the want and  
 misery which is the result of the oppres-  
 sive rents and heavy taxes which  
 devour their meagre earnings.

**UNDER THE CAR.**

Almost Fatal Ending of a Race Ri-  
 ot Between Conductors.

John Herrington and John J. McGre two street-car conductors of the Bo Heights electric line, had a narrow escape from a horrible and instant death yesterday and Herrington was so severely injured that he may die.

Both men were running a foot race to determine which could reach the barn first to take out their car. They failed to see a car which was coming out of the barn, and were struck by it.

six inches of the wheels. McGreal was struck and thrown the ground and badly bruised. H.ington was dragged from his peril position and Dr. Cates was summoned. It was found that he had sustained ternal injuries in the region of lungs. McGreal was stunned, and both w placed in a hack and conveyed to th homes in Boyle Heights.

---

**FRIEND OF CHILDREN.**

Mrs. Nora Mayhew Dies of Typh  
Fever.

A symbol of death fluttered from the door of the house at No. 676 West Twenty-third street yesterday and the five schoolhouses all over the city were half-mast.

The eyes of more than one child glistened with tears and a feeling of deep gloom pervaded the atmosphere around the Norwood-street school.

Mrs. Nora D. Mayhew, director of kindergarten at the Norwood-street school, was dead. She had been dangerously ill for more than three weeks with typhoid fever, and for the last week had been unconscious. Peace

and without a struggle, the woman whose kindness and lovable disposition endeared her to all who knew her, passed away Thursday afternoon.

Mrs. Mayhew was practically originator of kindergarten work in this city and had brought it up to a high standard.

Superintendent Foshay called a meeting at 3 o'clock yesterday afternoon at the Spring-street schoolhouse. The funeral will take place from St. James Church at 2 o'clock this afternoon.

---

**FOR IMPROVEMENT.**

**An Organization Perfected for Commendable Purpose.**  
A meeting was called at the office of Luke & Milne, corner Vermont and Jefferson streets, on Thursday evening for the purpose of organizing an improvement association. There were a number of the prominent property owners of the vicinity present and were enthusiastic for organization, believing that thereby great good could be accomplished for the locality. The meeting was called to order by C. Hyatt, who stated the object of the meeting, and named a thorough or-

ization of the forces interested in the improvement and development of the city. After a brief exchange of ideas an organization was affected as follows: C. W. Hyatt, president; C. Long, vice-president; E. J. Pratt, secretary.

A. E. Davis, D. Milne and E. J. Pratt were appointed a committee to draft constitution and bylaws to report at full meeting on Monday evening next. Some other special committees were appointed and the meeting adjourned until Monday evening when completion of the plan was made.

**MUSICAL MENTION.**

The piano recital given by Miss Marie B. Conger and pupils, assisted by Miss Katherine Kimball, was an exceedingly enjoyable affair. The stage was artistically decorated with paper vines and flowers, and formed a pleasing setting for the young musicians. The programme, which was rendered with what reflected much credit upon Miss Conger's thorough training, participated in by Mrs. F. W. Krieger, was as follows:

The Misses Olga, Cecile and Edith Palmer, Edith Percy, Nell Palmer, Margaret Wollacott, Elma Powell, Miss Conger, Miss Kimball sang Lillian's "Pansee d'Antomne," and Laddie" by Allitsen.

---

**Foresters Will Celebrate.**

A proclamation has been issued by A. McElfresh, high chief ranger of Independent Order of Foresters chapter 101 of the city, and their families, to assemble at Simpson Tabernacle, on S. Hope street, on Sunday, June 22, at 2 p. m.

**Social at Y.M.C.A. Hall.**  
The Ladies' Auxiliary of the Y. C.A. held their regular monthly last evening at the Y.M.C.A. Hall. About 100 guests were present, enjoyed a pleasant evening in the

## THE WEATHER.

U. S. WEATHER BUREAU, Los Angeles, June 19.—At 5 a.m., the barometer registered 29.88; at 5 p.m., 29.81. Thermometer for the corresponding hours showed 53 deg. and 73 deg. Relative humidity, 5 a.m., 89 per cent.; 5 p.m., 61 per cent. Wind, 5 a.m., east, velocity, 1 mile; 5 p.m., west, velocity, 5 miles. Character of weather, 5 a.m., partly cloudy; 5 p.m., clear. Maximum temperature, 80 deg.; minimum temperature, 55 deg. Barometer reduced to sea level.

## The Times

## ALL ALONG THE LINE.

Riverside did herself proud last night in the ratification of McKinley's nomination. Riverside is thoroughly American—that is saying that she will roll up a big Republican majority in November.

Coöperative marketing seems to be steadily gaining ground with the farmers, and the fruit exchange, as practiced among the fruit-growers of Southern California, goes far toward realizing Bellamy's ideal of community interest, at least, in that line of trade.

They say that the seaside resorts are enjoying their greatest patronage, but if the weather in this city continues as delightfully cool and altogether enjoyable as at present, there may be a serious falling off in the customary receipts of "mine host" at the seaside hotels.

The chance to ratify a Presidential nomination only occurs once in four years. It will be an opportunity of a lifetime to get in line this evening and join the hosts of ardent, earnest and loyal Republicans who will do honor to Mr. McKinley, and President McKinley, that is to be.

The oil nuisance complained of in residence portions of the city, far removed from the oil district, should be abated without further delay. Men and teams should be put to work hauling off the obnoxious stuff, and a surface of decomposed rock could be placed upon the street that would abate the noxious odors and remove all danger of a conflagration.

Judging from the culminating circumstances of an eastern tourist's humane intentions, it would not be a bad idea for the average citizen to first study the ways of the West before undertaking to correct errors of discipline. The provincial Atlantic has little conception of the West, even down to the prowess of its vicious equines. Instead of the word "whom" we use the lasso.

Two more men were sentenced to the penitentiary from this county yesterday. During the past week a number of criminals have pleaded guilty and received quick sentences. Unless the crime is a very serious one, the accused receive the lightest sentence possible when they appear at the bar of justice and confess their weakness before the county has been put to heavy expense in prosecuting to conviction. The District Attorney's office is purging Los Angeles county of its criminals.

The difference in time between Los Angeles and Sydney, Australia, is a trifle over eighteen hours because the astronomers and time men have ruled that the day begins at the 180th meridian. If the day began at the Rocky Mountains the difference in time between this city and Sydney would be only about six hours. Thus it will be seen that time is not always money, and that in these days of progress, it is a matter entirely of some scientific chap's say-so. He even says when and where a day shall begin.

As a result of the spiritualistic scrap on Thursday evening, the town was flooded yesterday with excited disputants who argued for and against the usual methods of communication with the dead departed, even going so far as to put up fat sums of money in support of their views. One confirmed skeptic made a standing offer of \$500 to any man, woman or child who would write down the name of a deceased cousin of his from spiritual dictation. Now is the chance for any poor and deserving medium to jump in and turn an honest penny.

There has been just enough of "programming" in the preparation for the monster ratification meeting at Hazard's Pavilion this evening to insure a foundation for a large and choice assortment of speeches, cheers, enthusiasm, red-fire, banners, and all the concomitants of the swiftest sort of a ratification function. The committees have done their work well, and the Republicans of the city have stood by them, all working to one end, which will be wrought out to night, when honor is done by speech and silence to the candidates of the Republican party for President and Vice-President of these United States. Let everybody ratify, and with all his might.

## CHILDREN'S HOME SOCIETY.

## Meeting of the Local Advisory Board.

At the last regular monthly meeting of the local advisory board of the Children's Home Society, at the headquarters, No. 233 West Twenty-fifth street, officers were elected as follows: President, Mrs. Josephine Ellis; first vice-president, Mrs. Stewart; second vice-president, Mrs. H. B. Collins; secretary, Mrs. M. J. Ellis; treasurer, Rev. John W. Ellis.

A motion was made and carried that two or more members of the board visit the missionary and aid societies of the several churches and try to interest the mothers in the work of child saving. These appointments to be made by the president and secretary. Mrs. Dallas was instructed to address the Junior societies and thus interest the young people. Several of these present took subscription lists to raise money for the new home now being erected for the use of the society.

A hearty vote of thanks was tendered Mrs. J. M. Bowles for faithful and efficient service for two years as vice-president. The board expressed its gratitude for the receipt of clothes, furniture, milk and money. Kind friends and neighbors have greatly aided in the care of the eighty little ones who have been received and placed in the last year.

REDUCED ROUND-TRIP RATES EAST Via Santa Fe to Chicago and Buffalo, June 30 and July 1; to Washington, D.C., June 26 and 30; to St. Louis, July 15 and 18; to St. Paul, August 15 and 25. Particulars at Santa Fe office, 300 South Spring street.

## CAUGHT A TARTAR.

The Octopus Monkeys with a Determined Clergyman.

Dr. Wilson's Experience with the Southern Pacific Road.

The Railroad is Afraid of Expert Testimony—An Ex-Sailor's Opinion of Santa Monica—Trying to Suppress an Exposure.

There seems no end to the devious wiles which have been practiced by the Southern Pacific in its struggle to rob the people of Southern California of a free harbor at San Pedro, and to beguile the government into donating to it \$3,000,000 to build a private breakwater at Santa Monica. Rev. John A. B. Wilson, D.D., pastor of the First Methodist Episcopal Church of this city, has an interesting tale to tell of his experiences with the Southern Pacific in connection with the harbor fight.

"Ever since I came to Southern California," said Dr. Wilson to a Times reporter, "I have not been able to get mixed up in the harbor fight. I am much interested in such matters, as I have a personal knowledge of affairs pertaining to navigation. I have been a sailor most of the time I was 19 years old. I was mate of a large vessel.

"For a long time I have received the Marine Journal of New York. Three or four months ago, in reading one of its issues, I came across an article on the Santa Monica harbor question, purporting to be written by a sea captain. He praised Santa Monica highly and declared it excellently adapted for the creation of a harbor. He said his steamer had ridden out two severe storms in safety while anchored there. "It was only a few days before that I had been at Santa Monica. As I am an expert on the subject, and as I had heard much discussion of the harbor question on that occasion, I took particular notice of the place. I examined the curves of the shore, the nature of the prevailing winds and so on, and it seemed very evident the alleged harbor for less than \$100,000,000, and even that sum would simply demonstrate the failure of the scheme.

"The weeks went by and my article did not appear. At last I stopped looking for it, and concluded the Journal did not want the safety, let alone the veracity of its correspondent exposed, so I gave it up, with no thought of pursuing the subject further.

"About three weeks ago a representative of the Southern Pacific called upon me and asked about my letter to the Marine Journal. I asked what he knew about it, for it had not been published. He said it would not be published, as it had been turned over to the Southern Pacific authorities, who had sent it out here. My caller said he had been delegated to see me about it. I called his attention to the fact that my article contained no attack upon the Southern Pacific.

"No," said he, "but it contains the statement that it would cost \$100,000,000 to put a breakwater at Santa Monica. That declaration would be very damaging to the Southern Pacific, coming from a man who is understood to have expert knowledge of such questions."

"Yes," I answered, "it would cost \$100,000,000, and that sum of money would not begin to do it. I believe an artificial harbor there would be an impossibility, and if made, the lack of good holding ground would render it impossible to place an anchor.

"I assured my visitor I did not intend to pursue the matter. I told him I had fled away the first draft of my article so cautiously that I had been unable to lay my hand on it. As a matter of courtesy, I asked that the Southern Pacific should furnish me with a copy of my letter, which had come into its possession in such an unusual way, or at least let me see it long enough to make a copy for myself. My caller, expressing himself as entirely satisfied with the interview.

"The days went by, and I heard nothing further about my letter. At last I rang up the Southern Pacific ticket office by telephone to make inquiries. I was very curtly told that the railroad officials had themselves under no obligation to give me a copy of my article. I told them I asked no unusual courtesy, but that if the copy was not forthcoming, I would demand it. I would call upon the Times office and ask that a reporter should be sent to my home, that I might be given the whole story.

"Then there was consternation. "They asked me to hold the wire until they could consult with Mr. Crowley. They told me the article had been sent up to the San Francisco office. They told me they were only employees, and had nothing to do with the matter. They begged for time to send to San Francisco. This seemed reasonable and I consented.

"A week later I telephoned to the Southern Pacific office again. Mr. Crowley was out. Mr. Crowley was out every time I tried to reach him by telephone. Then I threatened to immediately communicate with the Times. This brought Mr. Crowley to the telephone at once. I learned that nothing whatever had been done. Mr. Crowley pleaded for more delay. I told him he had a telegraph instrument at his elbow and that he could find out at once what was to be done in the matter. He said the telegraph could not be used for such a purpose. He begged for time to give me an answer. Later he told me he had to go out of town and begged for still more delay. I told him he was dealing with a man, not a baby, and that I should not communicate with him again. I am not in the habit of bluffing and I was left on some boards in the rear of the Apollonia-street building and at about 4 o'clock yesterday morning he died.

SAVED FROM LOCK JAW. Chinese Vegetable Gardener's Injuries Prove Fatal. The coroner was notified yesterday morning that Ah Sun, a Chinese vegetable gardener, had died in a shack in the rear of No. 321 Apollonia street early in the morning without medical attention.

The Celestial worked in a vegetable garden near Florence. About a week ago a narrow ran over his right foot. His wound grew worse rapidly and lockjaw set in. Thursday night he was placed in a wagon by some of his countrymen and brought to this city. He was left on some boards in the rear of the Apollonia-street building and at about 4 o'clock yesterday morning he died.

is preposterous," said Dr. Wilson. "Either Huntington himself is being duped by his engineers or he wants the work done merely that the Southern Pacific may be awarded the fat contract of hauling the material for the work. It is one of the worst steals ever attempted in the country, for a harbor at Santa Monica is an impossibility."

THE MAYOR'S SHAMOE.

With a Delegation from the Merchants' Association.

Gov. Hobart's chances for the Vice-Presidential nomination were seriously imperiled yesterday afternoon. It happened this way. For about two months the Merchants' Association has been making strenuous efforts to secure the passage of an ordinance regulating hack stands. After many fruitless attempts and repeated delays one was passed on Monday last, and the merchants began to congratulate themselves on the municipal recognition of their rights.

"But," inquired one who was experienced in the devious ways of politicians, "has the ordinance been signed by the Mayor?" An investigation was set on foot, and although two days had elapsed in the country, passed the ordinance, it was discovered that the signature was lacking, and furthermore that the Mayor was in an undecided state of mind regarding the matter.

Then there was some tail hustling. Secretary Knight called on a number of accessible merchants, leaving their dry goods, their clothing, their silverware, their drugs, their groceries and even their banks, a procession was soon on its way to the City Hall. It included President Frank, Mr. Hamburger, Mr. Bluet, Mr. Lowman, Mr. Mogrover, Mr. Sale, Mr. Anderson, Mr. Nordlinger, Mr. Marble, Mr. Deamond, Mr. Coulter, Mr. Henderson and others. As they filed into the Mayor's office, that good functionary looked inquiringly from one to another, but gave them a hospitable welcome. Then Mr. Frank, acting as spokesman, said: "Mayor Rader, Mr. McKinley has just been nominated for President, and we have come to ask if you will accept the Republican nomination for the Vice-Presidency. The Mayor stammered and blushed, as it declined the proffered honor on the plea of the bashful maiden, that the proposal was "no sudden."

Then the merchants proceeded to serious business, and earnestly urged the Mayor to sign the ordinance and make it the law. They stated that if there were any defects in it, they would be developed under its practical operation, and then the ordinance could be amended to meet the exigencies of the case. But they, the merchants, and their customers, the general public, were entitled to the relief asked, and they trusted that it would be granted. Their manner and tone were respectfully insistent, and the Mayor promised to append his signature to the document, and make it the law of the municipality. Thus is the hack and hitching ordinance an accomplished fact.

## THE LAND AND ITS FRUITS

**Seeds for Distribution.**  
The Times has received from the Agricultural Experiment Station of the University of California a limited quantity of seeds of a new variety of beet-sugar, of field peas (four varieties) and of cotton (seven varieties) for distribution to subscribers who would like to test these seeds and will report upon the results.

The experiment station furnishes the following information regarding these seeds and the method of culture, etc.:  
**SUGAR BEETS.** The seed was grown by F. Demaree, County Normal, Fresno, and was forwarded to the university for testing throughout the State. It is the best of four grades which they have sent. The advantage of distributing this graded seed is that it enables the university to have a more uniform trial of the comparative value of different localities for sugar-beet culture, and the university will report upon the results from each lot of beets grown from this seed. If any farmer will sow the seed in rows of twenty inches apart, dividing his seed into two equal parts, he will have a more uniform trial of the comparative value of different localities for sugar-beet culture, and the university will report upon the results from each lot of beets grown from this seed. If any farmer will sow the seed in rows of twenty inches apart, dividing his seed into two equal parts, he will have a more uniform trial of the comparative value of different localities for sugar-beet culture, and the university will report upon the results from each lot of beets grown from this seed.

When samples are to be taken for testing, they should be taken from the middle of a culture plot, as the quality will be more uniform than from the edges. Half a dozen beets are sufficient for a full test. The experimenter should note date of sowing, date of thinning, number of times cultivated and date of taking samples for analysis. He should describe the soil as carefully as possible, whether sandy or clay, etc., or upland, valley, etc., give rainfall in district and any points about climate and location that would account for an intelligent farmer. It is late, but not too late for very suggestive results. If the best seed is sown as soon as possible.

**COTTON (seven varieties).** A very small lot is enough for each farmer. Every seed should grow, and now is the time to sow. Cotton plants are fine for exhibition. The plants space four feet apart, and push growth, as our climate is so different. The cotton and field-peas are of the same variety. As a rule, the cotton is remarkably pure and good. All are equally well worth testing. **FIELD PEAS.** (four varieties). They yield enormously. They are used for fodder and for green soiling. Are adapted to alfalfa lands.

These seeds, or any of them, will be sent to subscribers of The Times for a fee of \$1.00 for each package, to cover cost of postage and packing. Write name and address plainly, and indicate on the envelope "Seed Distribution."

In addition to the above The Times has received through Senator White a sack of seed packages, being seeds provided by the government for free distribution through the Department of Agriculture. A package of each of these seeds can be obtained free by subscribers on applying to the circulation department of The Times, in the basement, or the ten packages will be mailed to any subscriber who sends his address. Following are the seeds: Wetherfield large red onion, large yellow Strasbourg onion, Beauty tomato, long green Turkey cucumber, Eclipse extra early beet. Also the following flower seeds: Poppy, Paeoniflorum, sweet pea, painted lady, Bartonia Aurea, Calceola Meteor.

**Crops and Markets.**  
The weather during the past week has been pleasant and favorable to the growing crops. Fruit has been ripening rapidly under the influence of the hot weather of last week. This same weather did some damage to beans and caused oranges to drop. The late bloom of apricots and peaches has also suffered in some sections.

Apricots are reported to be doing well but the general condition of other deciduous fruits is not so satisfactory. The barley harvest is under way in Riverside county. By the time it is over, the wheat harvest will begin.

In some sections, the farmers are becoming a little alarmed at the shortness of the water supply. From the northern part of the State it is reported that apricots and peaches are almost a failure. The short supply of fresh fruit has led to a good demand and high prices are being realized. Prices of peaches do not climb upward so rapidly as might have been expected from the short supply.

The short crop of apricots will largely reduce the amount packed and dried this season, as growers can make a much better profit by disposing of them in the market for general produce.

**Next Culture.**  
An interesting volume on the subject of nut culture in the United States has recently been issued by the Department of Agriculture. The author shows that ever since the colonization of America there have been some individual efforts and interest in the planting of nut-bearing trees near homes, for nut production as well as shade.

Chestnut, walnut and hickory trees have been spared in clearing away the forests, and in succeeding years have yielded to their owners abundant crops of these wholesome products of the soil.

It is recommended that no large investment in nut orchards should be made in any region until a careful determination has been made of the species best suited to its soil and climate. And even then the enterprise is a mere lottery unless trees of a productive variety are obtainable. The fruit of which will create by its desirable qualities a special demand for the product. The best guide in selecting both the species and the varieties for planting will commonly be the productiveness and quality of product of trees planted or growing naturally in the neighborhood. These seem so important that the department urges that in localities where there are no fruiting specimens of the species that he contemplates growing, the planter first seek experience by planting a few trees rather than a large number.

There is a great diversity of opinion among experts as to the relative advantage of leaving trees in the nursery rows until they come to fruitage, and the planting of the nut on the spot where the tree is intended to grow.

The advocates of the nursery period of long duration claim for their method (1) greater ease and less expenses of cultivation of young trees in the nursery row than in the orchard; (2) less liability to injury of the trees during such cultivation by ordinary farm help; (3) increased facility of cropping the contemplated orchard site without the presence of small trees, and the consequent increased profit from such cropping; (4) a more uniform stand of orchard growth when the plantation first comes into bearing.

The author of this work thinks that

crop in that country, have excited much surprise and considerable anxiety among the French prune men. The prunes arrived in fair condition, and were sold at profitable prices.

A few years ago the idea of shipping California prunes to France would have been considered as absurd as a project to send coals to Newcastle, but the California crop has increased so rapidly and come down to us in such a way that the improbability of two years ago has become a fact.

One of the French papers refers to the curing of the California prunes as "a system of evaporating much superior to that in use in France," and advises French cultivators to use the same methods. This is quite a compliment to the California prune-growers.

Recently a syndicate has been organized in France against the use of foreign prunes in that country. The syndicate does not, however, appear to have been received with much enthusiasm, and it is probable that the California product will make its way in France as well as in other European countries on its merit.

It is very common to hear farmers say that their stock does not pay. This is really the severest possible reflection on their own management. Some kinds of stock cannot be kept in certain localities, because the land is too valuable to make it profitable to grow with the feed for them. What should be aimed at is stock good enough to pay for the feed they require when bought at market rates. Then it will not make any difference how dear the land is, for the stock will pay anyway.

**Well Bred Hogs.**  
(A. E. Warner, in California Cultivator.) This heading might refer to individual merits in the way of manners, good behavior and a natural aptitude for refinement in even a hog's life. Of course, we know that it is necessary for most people to repeat the same old adage, "a hog will be a hog," but it is more than likely that these same people have not yet met the one who is a hog in the way of his mind. He is a hog in the way of his mind, and he is a hog in the way of his body. He is a hog in the way of his mind, and he is a hog in the way of his body. He is a hog in the way of his mind, and he is a hog in the way of his body.

Today we have a hog beautifully molded in every particular, and with the established qualities of placing the most weight in portions bringing the most money. The strife is for a light shoulder, heavy ham and long, deep sides. The cost of producing hogs of this type as compared with the average hog would seem a very small figure to many people. I have sows that weaned large litters last November, were bred, turned out on alfalfa and short pasture with very few beans, and no grain whatever, that have come up at farrowing time in fine condition, carrying so much more than the average sow that they are nearly as good as a gold mine. In fact, nearly all of my sows at farrowing are in prime condition, but the flesh is, of course, different than if grain fed. Exercise, grass and fine water are elements of good breeding. There is no cause for alarm for sows fattening under such conditions. If in prime condition, she has a surplus of vitality to draw upon in any emergency. Her pigs are all fat at birth and will always keep fat with a decent chance. Some people get frightened when you speak about this kind of hog, and exclaim, "Oh, I ain't raising fancy hogs, can't afford such luxury; it's all right for the fancier, but we must make a long way in improving the quality of the herd. But they say, 'Can't afford to pay two or three times the market price for a hog just to breed on common sows.' Well, if they continue to use a common boar on common sows how long will it take to get them better? But this is the way many are breeding. It is a great deal like the frog in the well that jumped up one foot each day and felt back two. The thoroughbred boar has added thousands of dollars to the market value of the American hog, and in the great majority of cases, the original herds were quite ordinary sows. On some ranches in Nebraska and Kansas, where the only hog raisers were the boar, the herds have been brought up to such a degree of perfection that the quality is being removed from that of the few dollars extra on a choice pig to head the herd that a man must deliberate over, and the quality of small percentage of the increased value (on even one crop) of pigs will take to make up the few dollars. It is the well-bred hog that brings the most per pound and makes the greatest number of pounds in the least time upon the least feed and this is what hog-raisers are figuring for.

**POULTRY.**  
If the hens have stopped laying change their food; a variety of food always brings the best results. A good mixture for the morning meal is boiled grain mixed with bran. For the evening meal alternate with whole corn, wheat or oats, and give them the needed exercise, by making them scratch for their living by scattering the whole grain under some loose straw.

**Light Brahmas for the Farm.**  
(Webb Donnell, in New York Weekly Tribune.) The Light Brahmas may well be called the short-born of the poultry world, for it is the best breed, if one may use the expression, among all the breeds of poultry, no other breed of fowls known today equating it in weight. The comparison might well be carried still further, for while the short-born is a best breed of cattle of the very highest type, many strains of the breed are also deep milkers. So, too, the Light Brahma is an example of productiveness in two directions, for it furnishes both a large frame, well covered with feathers, and a large number of eggs as well; for while it is generally considered that large size and quite abundant feathering are likely to be had at the expense of egg production, it is certainly a fact that a Light Brahma hen will lay a large number of eggs in a year, if she is rightly managed.

It is just here that the trouble usually arises. Comparatively few people appear to understand how to care for a flock of Brahmas so as to get the best results from them.

Like nearly all the Asiatic breeds, Brahmas are somewhat indolent and inclined to lay on flesh—two points that, not guarded against, will be quite sure to injure egg production. Give a flock of Brahmas all they will eat three times a day and you may whistle for your eggs—but the Brahmas won't lay them. They will straightway proceed to get fat and lazy, and their eggs will be few and far between, and will, moreover, be very infertile if one wishes to use them for incubating purposes.

Now, it does not follow that Brahmas must be starved in order to keep them laying—that would result in even greater disappointment. They must be cared for in a way to make them exercise vigorously, and still have plenty to eat. This may be accomplished by not feeding all the hens desire in the morning, and then by feeding a little grain to the fowls scratching all day long. At night one may safely give them all they can eat of egg-producing foods, and send them to their roosts in the morning. The way I have had Light Brahmas lay very nearly, if, indeed, not quite, as well as Leghorns, which are so productive of eggs as to be called by their admirers veritable "egg machines." A Brahma must be made to work, where a Leghorn would work of her own accord and for home choice, owing to its more nervous temperament. Being so well protected by feathers and having a low pea comb, a Brahma is a very safe bird to keep in a house, and it is very easy to feed. In fact, Brahma pullets are also very hardy from the very first, and grow very rapidly when judiciously fed. In fact, Brahma pullets are also very hardy from the very first, and grow very rapidly when judiciously fed.

When the price of eggs drops away down to the lowest notch in the spring, these Brahma hens can be dressed off and sent to market at a time when good poultry is much in demand. Attention can then be given the young birds and they will be ready to lay again in the fall, and the same programme repeated for next year.

## BIG DAMAGE SUIT.

Dr. Green Wants \$20,000 for Prosecution.

Wallace Sentenced to San Quentin—Ybarra to Folsom.

Action Deferred by the Board of Public Works Upon Bids for an Electric Railway Franchise. John Drane's Report.

John Drane, Superintendent of Street Sprinkling, yesterday filed a communication to the City Council embodying his views on the sprinkling of paved streets. The Board of Public Works deferred action upon the three bids for an electric railway franchise in Boyle Heights. A large number of recommendations were made by the board to the Council upon matters pertaining to street improvements.

At the Courthouse yesterday Wallace was sentenced to one year in San Quentin, and Ybarra was given the same time in Folsom. The prosecuting witnesses in the McDonnell case are still missing. The cause was continued till Monday afternoon. Several new liens suits have been filed against the First Presbyterian Church. Dr. Green's suit against the Randolph family for \$20,000 is in progress before Judge Shaw and a jury. All the parties to the action live at Pasadena. Legges was awarded \$500 damages in the Southern California Railway Company's condemnation suit.

(AT THE CITY HALL.)

## GOOD COMMON-SENSE.

DRAIN ADVISES THE COUNCIL TO "USE A FEW."

The Matter of Sprinkling the Paved Streets Discussed in a Communication to the City Fathers. Board of Public Works Business.

As noted in The Times of yesterday, John Drane, Superintendent of Street Sprinkling, has again decided to touch up the City Council, and remind the municipal fathers that, while the paved streets are being sprinkled with great vigor, the asphalt pavement is being ruined by the process. Superintendent Drane enlightens the Council on the subject as follows:

"I will again call your attention to the damage being done to the asphalt pavement by excessive sprinkling. The pavements have become full of depressions. The sand and gravel accumulates in these places, then when the street is sprinkled the water settles in these depressions, causing the pavement to rot and every wheel passing over it grinds the gravel and sand into the softened asphaltum, thereby destroying it. Asphaltum pavements should be kept as dry as possible. This is absolutely necessary. In my opinion, it is economy to do more sweeping and less sprinkling; while it may cost more at the present time, it will be doubly saved when it comes to repairing the pavements. With the amount of business we have on our streets, I believe it is impossible to keep them clean unless they are thoroughly swept every night, but unless they are swept, it is absolutely necessary to sprinkle them."

"The people generally think the streets are swept every night; some are, but most are not. Take Second and Fifth streets, for instance. They are only swept twice a week, therefore it is necessary to keep them wet all the time to make it possible for the people to live there."

"I would recommend that Pico street from Alvarado street to the end of the car line be sprinkled. This is a good gravelled street, but it is fast being destroyed for want of water; also the graded portion of the street from the Southern Pacific tracks south should be sprinkled."

## THOSE THREE BIDS.

Board of Public Works Defers Action Upon Them.

The Board of Public Works was prepared yesterday to tackle the three bids for an electric railway franchise in Boyle Heights, but upon a request made by representatives of the Traction Railway Company, action in that direction was deferred for one week. The board made the recommendations as follows: "Recommend that petition from G. G. Johnson et al., asking that a cement sidewalk six feet wide and a cement curb be laid on the south side of Seventh street, from Alvarado to Hoover street, be granted and the City Engineer instructed to prepare and present the necessary ordinance of intention therefor."

"Recommend petition from Anna M. Spence et al., in reference to the grade of Whittier street be filed."

"Recommend petition from W. H. Rorick et al., against the improvement of Oak street between Washington and Twenty-first streets be sustained and the proceedings ordered abandoned and the Engineer be instructed to present the necessary ordinance of intention to sidewalk and curb the said east side of Oak street between the south line of Washington street and the north line of Twenty-first street."

"Recommend petition from C. H. Libbey in reference to the grading of Oak street be filed."

"Recommend that petition from H. G. Wishnie in reference to the improvement of the intersection of West Seventh street and Beaton boulevard, be filed, as the work has already been ordered."

"Recommend that petition from O. Blum et al., asking that First street between Grand avenue and Olive street be graded, curbed with cement curb and sidewalk with cement sidewalk six feet wide, be granted and the City Engineer instructed to prepare the necessary ordinance of intention therefor."

"Recommend petition from F. H. Keith et al., to grade, gravel and curb Allison street from a point 350 feet west of Water street to Chestnut street, be referred to the City Engineer for the necessary estimate of cost, and if the same exceeds the amount required by law, then to present the necessary ordinance of intention to do said work under the bond provisions of the Vrooman Act."

"Recommend petition from C. P. Dandy et al., asking that the grade of Park View street between Ninth and Tenth streets be changed so that the cut will not exceed four feet at the highest point, be referred to the City Engineer for the estimate of frontage, and if the same represents a majority, and if the grade is proper for the street, then to present the necessary ordinance of intention."

"Recommend petition from Louis Phillips et al., in reference to the widening of sidewalks on Main street between Commercial and Fifth streets, be referred to the City Engineer for the estimate of frontage, and if the same represents a majority, and if the grade is proper for the street, then to present the necessary ordinance of intention."

ferred to the City Engineer to estimate the frontage thereon contained.

"Recommend petition from F. B. Harbert et al., asking that a cement sidewalk be laid on the east side of Kingsley street between Thirtieth and Jefferson streets, be granted and the City Engineer instructed to present the necessary ordinance of intention therefor."

"Recommend petition from G. H. Bonebrake et al., asking that the street railway company operating on Spring street be ordered to remove the iron on their curves at Tenth, Eleventh, Twelfth, Thirteenth, Fourteenth, Fifteenth, Sixteenth, Seventeenth, Eighteenth, Nineteenth, Twentieth, Twenty-first, Twenty-second, Twenty-third, Twenty-fourth, Twenty-fifth, Twenty-sixth, Twenty-seventh, Twenty-eighth, Twenty-ninth, Thirtieth, DISASTROUS FIRE YESTERDAY MORNING NEAR FULLERTON.

## ORANGE COUNTY.

**Five Horses, Household Furniture, Six Hundred Sacks of Grain and Two Hundred Tons of Hay Burned—Two Alleged Murderers in Court.**

SANTA ANA, June 19.—(Regular Correspondence.) Word was received here this morning of a disastrous fire near Fullerton in the county, which resulted in the burning of a large warehouse and barn, the property of W. F. Balford, together with nine head of valuable horses, two mules, about 200 tons of hay, 600 sacks of grain, a gasoline engine and all kinds of farming implements. A fine piano was stored away in the warehouse, and also a large quantity of household furniture belonging to Mr. Hale, brother of the foreman of the ranch.

The fire was discovered about 12:30 a.m. The whole roof was then ablaze, the imprisoned horses having been roasted and killed. One of the farm hands came home and having a horse in the barn went to the stable where the horses were kept. One of the animals was pawing and making considerable noise, but aside from this nothing unusual was noticed. The man, spoke to the horses and they came down, and then went over to a bunkhouse about thirty feet from the barn and went to bed. Just before 1 o'clock he was in some uncontrollable manner awakened, and seeing everything so light about him, he sprang out of his bed and ran to the door, only to see the big barn and warehouse enveloped in furious flames.

The alarm was given at once and everybody about the place was soon up and doing all they could to stop the fire and rapidly spreading flames, but it was too late. The heat was so intense that the men were driven back, and all they could do was to stand by and see the flames devour the property. The contents of the barn were saved, the flames being confined to the main body of the building. The loss is estimated to be fully \$10,000, and there was only about \$5000 insurance.

The origin of the fire is unknown, but it is believed to be the work of a firebug. The burning of the stable and horses is said to have been a premeditated act, but at the time the residents of the ranch were aroused the heat was so intense that to give assistance was impossible.

This is the largest fire in the history of the county. The ranch is located about one and a half miles east of Fullerton, and is known as one of the best ranches in the county. Mr. Balford himself spent a great deal of his time in Los Angeles.

## WILL PROBABLY DISSOLVE.

The board of directors of the Anaheim Cooperative Beet-Sugar Company held a meeting at the company's headquarters yesterday afternoon in the office of the company at Anaheim, and after some consideration of the matter of dissolving the company, it was decided to dissolve the company. The board of directors of the company, which was organized for the purpose of growing and refining beets, has decided to dissolve the company, and the assets of the company will be sold.

## WONG HING IN COURT.

Wong Hing, charged with the murder of Yon Doo, a Chinese woman, in this city, some weeks ago, was brought into court this morning and formally charged with the crime of murder. His attorneys moved to set aside the information, but this motion was denied by the court, as was also the demurrer to the information. The case was set for trial on Wednesday, July 8, 1896. He was sent back to jail to await his trial in the Superior Court.

## SACCHOCIO PLEADS NOT GUILTY.

Antonio Sacchocio, charged with the butchery of Fisherman Pete at Newport Beach, was arraigned today in the Superior Court, and when called upon to plead he answered that he was not guilty. His case was set for trial on Wednesday, July 8, 1896. He was sent back to jail to await his trial in the Superior Court.

## MARRIED IN SANTA ANA.

Joseph E. Gross and Miss Ruby Rhodes, both of Los Angeles, were quietly married in Santa Ana about 4 o'clock Friday afternoon. The young couple arrived in Santa Ana on the afternoon train, and after procuring a license at the County Clerk's office, they proceeded to the office of Justice of the Peace Huntington, accompanied by Deputy County Clerk Beckett, where the ceremony was performed. Mr. and Mrs. Gross returned to Los Angeles on the later evening train.

## IMPORTANT LITIGATION MEETING.

There was an important litigation meeting in Orange Thursday, at which the committees of the Santa Ana Valley Irrigation Company and of the Anaheim Union Water Company, together with the attorneys and the superintendents of the companies were present. The meeting was held for the purpose of consulting together and taking steps in the matter of prosecuting parties far up the river who it is alleged, have been unlawfully drawing water from the river's channel. After fully considering the matter before them, it was decided by the representatives of the companies to push the suit with vigor.

## ORANGE COUNTY BREWSTER.

One of the most pleasant social gatherings that has been held west of the river for many a day was the Fraternal Aid gathering at Garden Grove recently, when the women, after the literary portion of the program, were entertained at a feast that was greatly relished. The association in Garden Grove is very strong.

D. M. Baker returned Thursday evening from the Democratic State Convention at Sacramento. He says the other delegates, Messrs. W. M. McFadden and Edelman, will be home in a day or two.

Charles Davis, a prominent citizen of Highlands, has been spending a few days in Santa Ana Valley during the warm spell in the interior. He is delighted with the valley climate.

In Justice of the Peace Huntington's court Friday, a judgment was given L. B. Crother against Zena H. Taylor for \$3.50, the balance due on a load of hay purchased by the defendant.

The final account of the administrator in the estate of L. C. Thomas, deceased, has been approved, allowed and settled, and a distribution of the estate ordered.

Mr. and Mrs. F. E. Knight, H. E. Byler and family, and E. Newell, all of

## SANTA ANA, DEPARTED FRIDAY MORNING FOR TUCUCA CANON FOR A TWO-WEEKS OUTING.

Mrs. M. T. Morgan and her daughter, Miss Katie Morgan, returned to their home at Orange, from San Bernardino, where they had been visiting friends.

The La Habra school district has received bids for the erection of a new schoolhouse. The structure will probably cost between \$1000 and \$1200.

Mrs. Sarah J. Edwards has purchased a ranch of twelve acres in Santa Ana, on West Fifth street, of R. W. Church for \$300.

A son of Mr. Courages of Westminster fell from a wagon Tuesday and fractured his right arm above the wrist.

Mrs. W. W. Swearingen of Santa Ana has received the sad news of the death of her father, A. Turner of Chico.

Fritz Rath of Anaheim was today made a citizen of the United States by Superior Judge J. Bowman.

D. C. Pixley has returned to Orange from an outing at the San Juan Hot Springs.

## FROM CATALINA.

**AVALON (Catalina Island), June 19.**—(Special to The Times by the Flying-Clipping Black Face of the Catalina Carrier Pigeon Service.) The first illumination of the season will occur tomorrow evening when Avalon will greet the summer of 1896 with her old-time welcome of fireworks, colored lights, illuminations and all the gala of her regular Saturday night festivities. Hundreds of Japanese lanterns are being put in shape for the hotel porches and buildings all along Crescent avenue. The band will discourse some of its choicest music for the hop at the pavilion, and everyone is anticipating a gala time.

There is a small boy over here who is liable to repeat the sacred history of Jonah and the whale. If he doesn't "watch out," he is 9 years old weighs exactly fifty pounds, and last night hooked two big tunas, either one of which could have swallowed him at one gulp, without winking. The largest fish weighed 155 pounds, and the other was but a size smaller. This incident sportsman halls from Los Angeles and his name is Harold Dodd. One day this week he hooked a forty-pound sea bass, of course the boy cannot haul in his big catches. The boatman has to do that, otherwise it would be the boy who got caught instead of the fish.

The tunas were taken last evening off near Sugar Loaf, and towed the boat a considerable distance out to sea with the day. Mr. Dodd and his son, a boy, son, boatman, in it. Swan pulled in the fish and the boy got the glory. The youthful mascot was photographed with his trophy this morning. A pleasure party on board the Fleetwing yesterday afternoon did an unusual thing in hooking a baby tuna on an ordinary yellow line. The fish was flying fish bait, which is considered a necessity in catching tunas. The fish weighed thirty pounds, and was taken off Pott's Valley.

Mrs. E. B. Jones with her children, Della, Scholastic of Louisville, and Mrs. L. M. Lockwood and Miss Pearl Lockwood of Pomona have just arrived and set up their household goods in two large tents near the eucalyptus grove. Next week they will be joined by Mrs. L. Lockwood and later in the season by other Pomona friends.

A. B. Olson and family of Los Angeles, F. E. Benjamin, Charles E. Parent of San Francisco, Joe Walker of Pasadena, W. B. Cole and wife of Azusa, Henry Morrow and wife, Mr. and Mrs. A. C. Hiscok, Dr. O. H. Menzies, Mrs. L. K. Hiscok, Mrs. J. W. Lopp of Columbus, Ind., are camping here. Mrs. Welsh and family of Los Angeles, Mrs. J. W. Lopp of Columbus, Ind., are camping here. A fine seventy-foot flagpole was raised yesterday over the Swanfield camp. The flag was hoisted at 10 o'clock last night and left for San Pedro this morning.

Recent arrivals at the Sea Beach are: Della Scholastic of Louisville, and Mrs. L. M. Lockwood and Miss Pearl Lockwood of Pomona have just arrived and set up their household goods in two large tents near the eucalyptus grove. Next week they will be joined by Mrs. L. Lockwood and later in the season by other Pomona friends.

## RIVERSIDE COUNTY.

**ENTHUSIASM OVER THE POPULAR NOMINATION.**

Citizens held a grand ratification of the nomination of McKinley, Guavish, Acquitted of the Murder of Mrs. Platt—The Marshall Trial.

RIVERSIDE, June 19.—(Regular Correspondence.) Francisco Guavish, the Indian who, with three others of his race, was accused of killing and burning Mrs. Platt, the Pachango Indian reservation teacher, in September, 1894, goes forth a free man, at least as to his connection with that crime. After being out just twelve hours the jury returned a verdict of not guilty, greatly to the surprise of almost everybody. The jury gave the defendant the benefit of the fact that his guilt was not absolutely proven, outside of the confession of Molino.

Guavish is not given his freedom. The Los Angeles courts have five indictments against him for highway robbery and other offenses, and the prospect is good for him to spend many years, if not his natural life, behind prison bars.

Molino, his confederate, who confessed and has been sentenced to life imprisonment, will now be sent to State's Prison. The charges of murder against Dado, Trujillo, and Rodriguez, Rodriguez still stand, but will in all probability never be brought to a hearing, as the confederate, the chief culprit carries with it a probable failure to convict his confederates.

The greatest sensation in the whole trial was the confession of Molino. It will be remembered, had confessed repeatedly to his part in the killing of Mrs. Platt, Guavish, Rodriguez and Trujillo. Once he repudiated his confession before the justice court, but later maintained its truth in the Superior Court. He was sentenced to life imprisonment by Judge Noyes and kept here as a witness against his confederates.

This afternoon several officials and lawyers called on him in a body in the jail and told him he could not be sentenced to life imprisonment, but that he was already imposed and he had failed to tell the truth. At first he maintained the truth of his confession, but finally he broke down and confessed to his part in the crime.

He said he would tell the truth now. He said that Martin Aguerre of Los Angeles told him that unless he confessed to his part in the crime he would only get a life sentence and that he got caught instead of the fish. He declared the truth is that he had nothing to do with the murder of Mrs. Platt, and that he was only a witness against his confederates.

The failure to convict Guavish has awakened doubt as to the outcome of the trial of Charles Marshall, who was convicted of the murder of Mrs. Platt. But the fact developed some days ago that he had disappeared, and it is now known that he has fled to the mountains. The trial is set for July 6.

## GREAT RATIFICATION MEETING.

The spontaneous enthusiasm of Thursday on receipt of the news of the nomination of McKinley, Guavish, Acquitted of the Murder of Mrs. Platt, was given throughout without a break and were awarded many compliments, which were evidence of the popularity of the McKinley-Guavish ticket.

The first Christian Church Sunday school of Los Angeles will have a picnic here Saturday. The Los Angeles and Redondo Railroad company is making numerous improvements on its line.

The yacht Defender, Jr., which was launched last week, has been taken to San Pedro for some minor repairs and alterations. Fishing of late has been unusually good. Dozens of barracuda were caught Wednesday from one of the wharves.

At the meeting of the Board of Trustees Thursday evening an ordinance was presented prohibiting the placing of signs across streets or projecting more than two feet from any building flush with the street. The ordinance is to be submitted for final passage at the next meeting.

The members of the school faculty serving during the past year were: F. W. Guthrie, principal; Miss Susie M. Thompson, assistant principal; and Miss Elizabeth Murray, assistants. The members of the Board of Trustees are E. P. Maxey, George Cate and G. W. Russell.

## INGLEWOOD.

INGLEWOOD, June 19.—(Regular Correspondence.) The prospect is favorable for the location of Occidental Presbyterian College at this town. The Los Angeles Presbytery has the subject under consideration, and has fixed Freeman to be present at a meeting of that body to be held next Monday. A subscription of \$2000 has been obtained for making certain alterations and repairs on the hotel building and painting it, the several amounts being contributed by the members of the college at this place, the intention being to use the hotel building, as changed, for the college. Dr. Freeman has offered to give the hotel building and site, together with additional ground, and also lots for such members of the faculty as will build houses, the offer being conditional upon the location of the college here.

Invitations have been issued for the celebration Saturday of the twentieth anniversary of the marriage of Mr. and Mrs. James Lee.

## SAN DIEGO COUNTY.

**Stirring Scenes at the Golden Cross Mines.**

SAN DIEGO, June 19.—(Regular Correspondence.) Blood might have been shed at the Golden Cross mines, El Cerrito recently, according to reports. The 170 miners were reported in open revolt against Manager Toll because they had not been paid regularly. When ordered to disband, the miners refused to clean up the amalgam miners, becoming suspicious, kept the clean-up under range of their pistols. The recently appointed receiver, W. W. Newart, is said to be popular with the miners, and it is believed that within six months the \$100,000 of the company's debts will be paid off. This is the story as given out by representatives of the company, who are supposed to be opposed to the trustees and Manager Toll.

## THE WATER FIGHT.

A report is in circulation that a move is on foot to offer the city a water plant which it will own completely, including the plant, the reservoir, and the distribution system. The plan is to build a water plant on the San Diego River, and to supply the city with water from the plant. The plan is to build a water plant on the San Diego River, and to supply the city with water from the plant.

The selfish water speculators who are netted at the prospect of a municipal water supply independent of them, have begun their usual display of inanity, by throwing at the supposed leaders of this move in behalf of the people.

## MURDERER BEANS AGAIN.

After feigning disregard for food, Ebanks, the murderer, became so hungry to continue the game of hide-and-seek, that he was taken to the jail and kept there for several days. He was then taken to the jail and kept there for several days.

## SAN DIEGO BREWSTER.

Lawyer James L. Copeland, who was injured recently at a fire, is suffering severely, and it may be weeks if not months before he recuperates. His ankles were sprained, and he is unable to walk. He is now in the hospital, and it is expected that he will be discharged in a few days.

The Republican ratification meeting on Tuesday evening before the school, presented the diplomas, and in doing so spoke of the pleasant relations of the pupils and teachers during the year. The class song, written by Miss Alice Canniff, one of the graduates, closed the exercises.

## SAN BERNARDINO COUNTY.

**PREPARING FOR A BIG RATIFICATION TONIGHT.**

Special Trains Will Bring Many Visitors from Neighboring Towns. The Graduating High School Class Makes a Fine Showing.

SAN BERNARDINO, June 19.—(Regular Correspondence.) The ratification of the nomination of McKinley Saturday evening will be the greatest event of the kind ever seen in the city. Special trains on the motor and Santa Fe roads will bring in delegations from all parts of the county, and thousands of people will fill the hall in the process. There will be at least a thousand torches and several hundred guns in the procession. The parade will form on E street, south of First, at 7:30 o'clock, sharp. All trains will stop there. The order of march will be as follows:

City Marshal and Mounted Police, New City Band, Grand Marshal and Aids, Redlands Club, Redlands Club, Colton Club, Colton Club, San Bernardino Republican Club, Republican Shotgun Brigade, HIGH SCHOOL COMMENCEMENT.

The opera-house was beautifully decorated for the commencement exercises of the high school, graduating class. Thursday evening, Rev. R. B. Taylor invoked the divine blessing, followed by the class under the guidance of Miss Alice Canniff, who presided at the piano. Miss Alice Canniff, who presided at the piano, read an essay of exceptional cleverness, in which she dealt with the subject being "Plymouth Rock."

Miss Grace L. Ball gave as a violin solo, "The Trovatore," which was enthusiastically received by the audience, and Dr. Thomas R. Bacon of the State University spoke for "The Relation of the State University to the State," prefacing his remarks with a compliment to the San Bernardino schools.

A beautiful double trio was sung by John H. Myer, Andrew Pearce, Miss Grace Bright, Gertrude Rathbun, Nora Brouse and Nellie Adams. Charles A. Whitmore, valedictorian, read an essay on "Individuality," which was remarkable for its originality and careful study, and thought, as well as mastery of rhetoric on the part of its promising young author.

Miss May B. Ball sang in a pleasing manner, "The Day is Done," with a Scotch song in response to an encore. The school, presented the diplomas, and in doing so spoke of the pleasant relations of the pupils and teachers during the year.

## VENTURA COUNTY.

**Republicans of Ventura Will Ratify McKinley's Nomination.**

VENTURA, June 19.—(Regular Correspondence.) McKinley's enthusiasm has grown steadily since the receipt of the news of the nomination, and has now reached the ratification keynote. Arrangements have been completed for a monster demonstration in this city Saturday evening. Some of the best speaking talent in the county has volunteered, and a list of vice-presidents representing the strongest McKinley sentiment in Ventura county, has been made up. The young element in the Republican ranks has come to the front and will make Rome howl, at least they say that they will.

The meeting, which will be held in Armory Hall, will be called to order by Senator Orr, who will introduce Chairman C. D. Bonnell, Secretary C. H. Whitney and the vice-presidents:
